

Abstract Preparation Instructions for the PSD-14 Workshop

P. Firstauthor¹, S.T. Secondauthor^{1,2} and R.N. Thirdauthor²

¹ *Name of Institution/Department, City, Country*

² *Positron Department, Study University, Dislocation Street 1, Materials City, Country*

This template contains abstract preparation instructions for the International Workshop on Positron Studies of Defects 2014. The abstract must be written in English and its extent is limited to one A4 page (25 mm margins). The title of the abstract should be typed using the 14 pt Times New Roman bold font. The names of the authors and their affiliations should be then typed with the 12 pt Times New Roman font using the regular and italic font style, respectively. The title, author names and their affiliations should be centered and mutually separated by one empty line. Please underline the name of the presenting/ corresponding author.

The body of the abstract is typed again using the 12 pt Times New Roman font. The text is justified. There is one empty line between the abstract body and the preceding part of the abstract. In the whole document single line spacing is applied. You may also include equations, tables, figures (see Fig. 1) and references [1]. If an equation is given, like Eq. (1),

$$\lambda = \pi r_0^2 c n_+ \quad (1)$$

the Microsoft (MS) equation editor should be used.

Please submit your abstract online at <http://officepolaris.co.jp/PSD14/index.html>. The submitted file should be in the MS Word (.doc, .docx) format. If you would prefer yet another file format to submit your abstract, please contact the Workshop Organizers in advance.

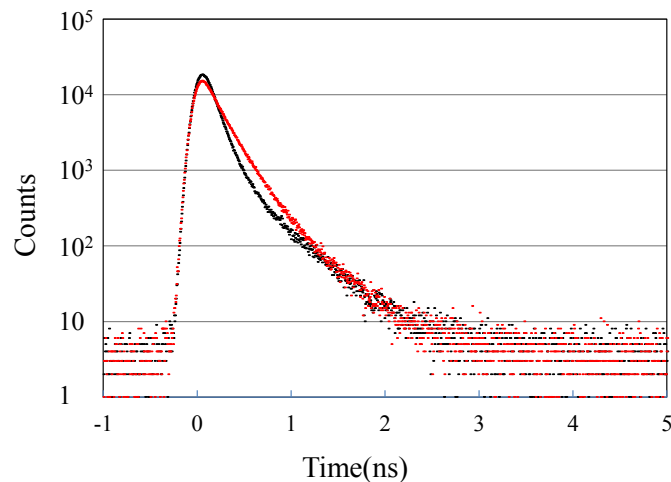

Fig. 1: Figure (and table) captions should be typed using the 11 pt Times New Roman font.

Acknowledgements, if any, should be located at the end and separated by one empty line from the material given above.
